

Consultancy

Construction advice and Consultancy, from Concept through to completion.

At HESL it is important to us that we provide our customers with value added solutions. This may not always result in a construction project.

Working with our clients we will listen to their needs and develop a solution that will add value to their business.
Consultancy - Adding Value

- Project management
- Design and Buildability advice

- Product selection

- M&E system selection
- Estimating
- Planning
